***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Amended claims 1, 9-15 and 17-23 remain rejected under 35 U.S.C. 102(b) as being anticipated by Wang et al. (USPN 5,831,472).

Fig. 4 discloses a threshold voltage detector 42, a comparator network 32/34/36/38/40, logic gates 39/41 and a circuit block 48-70 with an inverter 48 and added or removed transistors 58/60 configured and functioning as recited in claim 1.

Further shown is a pair of comparators 38 & 40 and a voltage reference network 32-36 configured and functioning as recited in claims 9-12.

Further shown is an inverter 50 & 52 with added transistors 58 & 60 as recited in claims 13 and 14.

Fig. 4 performs the methods recited in claims 15 and 17-23.

***Response to Amendment/Arguments***

3. Amendments are addressed by the revised rejection above.

Claims 1 and 15 vaguely define logic gates and logic signals. The claim is not seen to require that both logic gates receive both logic signals as argued.

***Allowable Subject Matter***

4. Amended claims 5-8, 24 and 25 are objected to as being dependent upon a rejected base claim, but may be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
